Subject: RE: Dico Protectiveness Statement

Erin,

I do not much in the way of comments on the addendum other than a quick detail about OU-3 (the North Plume). The DNR will stipulate the use of Method 524.2 when sampling on a 5-year schedule (to coincide with the drafting of future 5YRs). We are required to use the State Hygienic Lab and this will give us better detection limits and speciated DCE results.

Hylton, did you get a chance to look at the revised Five Year Review Addendum for Dico? I sent it to you on 6/1/2016. I need to finish that this week, so please have any comments back to me by the end of tomorrow. Thanks!
